P C—Partly Cloudy.

PARDONING AN ARMY OF DESERTERS.

Their Capture Costs the Government More Than They Are Worth.

A New Branch of Agriculture Recommended to the Farmers.

Final Decision in the Celebrated Myra Clark Gaines Suit.

WASHINGTON, May 13.—It is probable the President will issue a proclamation granting pardons to all deserters from the United States army, whether under confinement or at large. Since 1873, 40,000 enlisted men in the army alone have deserted, and about 8000 have been captured. The pardoning will save the government the great expense constantly entailed in capturing those at large and convicting them. Secretary Proctor evidently favors the plan, and has ordered the release of numbers of deserters confined in the military prisons.

FLAX FOR LINEN WEAVING.

A New Enterprise for Thrifty American Farmers.

WASHINGTON, May 13.—Prof. Willetts, Assistant Secretary of Agriculture, recently received a letter from Ireland which the Professor thinks may solve the question of "What shall take the place of wheat on farms where it can no longer be raised at a profit?" The writer has been familiar with flax growing in America since 1840. There are only two linen weaving establishments in America, the writer says, one at Webster, Mass., and the other at Appleton, Wis., neither weaving anything finer than crash. He says there is every reason why the American farmers should produce yearly a million acres of flax, both for seed and fibre, above what is now produced, which would give 12,000,000 to 15,000,000 bushels of seed, worth many millions of dollars, and 2,500,000 tons of flax straw, worth $50,000,000, and from which 500,000 tons of flax fibre would be obtained, worth $100,000,000.

The writer claims to have discovered a process by which, in five minutes, he can produce from the dry, natural straw perfect fibre, the color of cotton and fine as raw silk. A sample of the fibre produced by the new process was enclosed in the letter, and it was so satisfactory to Prof. Willetts that he informed the sender that the subject of his letter would be earnestly considered by the department.

THE CAINES SUIT.

Final Settlement of a Cause Famous in American Jurisprudence.

WASHINGTON, May 13.—The United States Supreme Court today, in an opinion by Justice Bradley, awarded the executors of the will of Myra Clark Gaines the sum of $576,000 against the city of New Orleans for the use of property sold by the city, but recovered by Mrs. Gaines after long litigation. The judgment of the lower court, awarding the executor $130,000 for the use of the unimproved property sold by the city was not concurred in. The present case, it is generally conceded, exhausts all the resources of the law, and is regarded as a final settlement of the litigation.

The Sioux Lands.

WASHINGTON, May 13.—Secretary Noble has directed prompt and thorough investigation to be made of the published report that settlers are now unlawfully entering the Sioux reservation in anticipation of the favorable result of the pending negotiations for the cession to the United States of a part of the Sioux lands. The law respecting the occupation of these lands by unauthorized persons is plain and explicit. The Secretary expresses his purpose to enforce it promptly and rigorously if the occasion requires.

Maine Postmasters Appointed.

WASHINGTON, May 13—Maine postmasters appointed today were: J. N. Mayo, Hampden Corner, vice F. G. Rogers removed; P. E. Towle, West Gardiner, vice A. W. Defratus, removed.

Washington Notes.

WASHINGTON, May 13—Mr. Walker Blaine emphatically denies that the State Department has received notice that Mr. Enander would not be acceptable as minister to Sweden. Mr. Enander is a close friend of Minister Thomas.

The Supreme Court today affirmed the validity of the law excluding Chinese laborers, known as the Scott exclusion law.

Admiral Porter says the missing log-book of the Harriet Lane fell into the hands of the rebels when the vessel was captured at Galveston.

Judge Matthews, who succeeds Judge Durham as First Comptroller of the Treasury, and Mr. Hudson who succeeds Mr. Hyatt as Treasurer of the United States, entered upon the discharge of their new duties this morning.

The pension claim of Clara E. Wing, of Skowhegan, Me., has been allowed.

Chief Engineer Merrill is of the opinion that the cruiser Charleston will succeed in making the necessary 7000 horse power in another trial.

THE ANDOVER CASE.

Professor Smyth's Claim Urged in a New Form.

BOSTON, May 13.—There was a hearing before Judge Field of the Supreme Court today on a motion made by the trustees of Phillips Academy vs. The Attorney General et al., to vocate the decree recently made in Essex county and amend the bill as follows:

And now comes the plaintiff in the above entitled case and prays this honorable court to vacate its decree therein, and to permit the plaintiff to amend its bill as follows:

By adding to the paragraph numbered 324 in said bill, at the end thereof: The said defendant Smyth claims that the proceedings against him on the part of said Visitors are void, and that he is still Brown Professor of Ecclesiastical History, and he demands from the plaintiff to teach, and that he be paid by the plaintiff his salary as such professor; while, on the other hand, the said Visitors have formally proceeded to the plaintiff against the said defendant Smyth being allowed by the plaintiff to teach, and against his being paid by the plaintiff as such professor.

And by striking out in the last paragraph of the bill the words "defendants, Smyth, Churchill, Tucker, Harris and Hocks, or either of them," twice, wherever the same occur, and substituting therefor the words "defendant Smyth."

And further by striking out the last 31 words in said paragraph and substituting therefor the words "his professorship to which he has been indicted, and whether it ought to refuse the said defendant Smyth leave to teach in his said professorship."

The order of Judge Field was:

Amendment allowed; the defendants to have 30 days to demur, plea or answer; a copy of the amendment to be furnished forthwith to the defendants.

RESPECT FOR WANAMAKER.

The Postmaster General's Reception by the Y. M. C. A. Delegates.

PHILADELPHIA, Penn., May 13.—The great international convention of the Young Men's Christian Association was brought to a close by the farewell meeting in Association Hall last evening. The hall was packed with the delegates and their friends. On the platform were all of the officers of the association and prominent clergy and others of the city. Postmaster General Wanamaker occupied a seat at the side of the president. Robert Orr, the secretary of the Pittsburg Association, presided. He introduced the speakers, among whom were Sir Kelly of Montreal, Mr. Wanamaker and Dr. Von Schlumbach of Berlin. President Chamberlain returned thanks for the hospitality enjoyed by the convention, and then as a testimony of respect to John Wanamaker, the members rose and remained standing as he advanced to speak to them. The postmaster general expressed the deepest regret that he had not been able, on account of his official duties to be present during the sessions of the convention.

C. W. Hatch Acquitted.

DENVER, Col., May 13.—The trial of C. W. Hatch of Boston, Mass., charged with the murder of his uncle Henry Hatch, was concluded at Burlington, Col., tonight, the jury bringing in a verdict of acquittal.

The Earl's Reply.

NEW YORK, May 13.—The formal letter from the Earl of Dunraven announcing the decision of the Royal Yacht Squadron regarding the terms submitted by the New York Yacht Club, governing the coming contest for the America's cup, arrived by the steamer Servia today. The document is addressed to Commodore James P. Smith, and was received at the New York Yacht Club house this evening. Commodore Smith had gone home to Stamford, Conn., and the letter will be opened tomorrow morning.

AFFAIRS AT SAMOA.

Information of the Doings of the Shipwrecked American Crews.

SAN FRANCISCO, May 13.—A letter from Apia, Samoa, dated April 12, says that the town has the appearance of a camping ground and that since the great hurricane more people are living there than ever before.

The divers were sent down to examine the hull of the flagship Trenton, but owing to dangerous under currents they were not able to ascertain the full extent of the injuries. The safes of the Trenton and Vandalia were recovered.

Admiral Kimberly made a contract with a New Zealand company to convey the Nipsic to Auckland. The Nipsic had not cleared the mouth of the harbor when the starboard end of the spar to which was attached the steering tackle weakened. A sharp squall came up and the heavy strain, in trying to head her to sea, was too much. In five minutes the port end of the spar broke away and the steering apparatus was rendered useless.

Admiral Kimberly will send the Nipsic to Auckland just as soon as another rudder can be made. He said the ship was sound and could make the trip. The admiral is very anxious to get the Trenton and Vandalia men to San Francisco as soon as possible. They are being kept at Apia at a very heavy expense. Through Admiral Kimberly's efforts Mataafa and Tamasese have agreed upon a temporary truce and promised to do nothing to alter the present peaceful state of affairs until after the Berlin conference has adjourned. Not more than one-third of the bodies of the victims of the storm have been recovered and it is supposed that the greater number of them were washed out to sea or fastened in the coral reefs and sunk in the wreckage.

A body, supposed to be that of Captain Schoonmaker of the Vandalia, was found on the beach four miles from Apia. It was buried on a German plantation near the spot where it was found. Paymaster Arms's body, which has been positively identified, was washed ashore near the house of Captain Hamilton, an American citizen living in Apia. Captain Hamilton buried the body in his yard.

The body of Pay Clerk Roche was also found about a mile from the wreck of the Vandalia.

SAN FRANCISCO, Cal., May 13.—The steamer Mariposa, which left Tutuila about April 28, has arrived here and brought news of the arrival off Apia of the storeship Monongahela, which left San Francisco February 18 for Samoa with a full cargo of stores for the fleet. A private letter says that the Monongahela arrived off Apia April 6, and was ordered to Pago-Pago by Rear Admiral Kimberly.

The Rockton, the steamer chartered by Admiral Kimberly to bring the shipwrecked officers and crews to San Francisco, is now on her way, leaving Admiral Kimberly and 70 men on the island.

MAINE.

Inspector Johnson's Case.

BIDDEFORD, May 13.—Richard M. Johnson, special inspector for the United States customs district of Maine, against whom a warrant was recently issued for alleged assault on a Presque Isle man with a weapon, was here Sunday.

The papers were not served on him. He left for St. Andrews last night.

His suit against United States Marshal Harmon for fees while he was deputy marshal, is assigned for trial in Biddeford this week.

Vassalboro's Enterprise.

AUGUSTA, May 13.—At a special town meeting, Saturday, Vassalboro voted to fix the valution of the Vassalboro woolen mill at $75,000 for five years. The new agent, Mr. Lee, has arrived, and it will be started up within six weeks.

Fire at East Stoneham.

NORWAY, May 13.—The Knights of Pythias Hall at East Stoneham was burned Sunday morning. The loss is $1,500; insurance, $700. W. H. Tibbetts, who occupied a store in the block, loses $2,000 on his stock; insurance, $1,500. The cause of the fire is unknown. It is understood that the hall will be rebuilt.

Thrown Beneath His Horse.

BRIDGTON, May 13.—Last Saturday noon Mr. Robert A. Cleaves was badly hurt by being thrown under the feet of a horse. He went to the noon train with a high spirited horse, which became frightened at the whistle of the engine and reared, throwing Mr. Cleaves to the ground and coming down upon his prostrate body.

Mr. Cleaves was taken home in an utterly helpless condition, and medical aid summoned. He was badly bruised, but fortunately no bones were broken. Mr. Cleaves is a brother of Hons. Nathan and Henry B. Cleaves of Portland.

All About a Gallon of Liquor.

AUGUSTA, May 13.—A well known express company is seeking to recover on a gallon of whiskey which came to its Augusta office and was spilled by an officer of the law. It seems the liquor was the property of a man residing in the city, but by some chance the driver of the stage which runs to the National Soldiers' Home, Dayton, took it from the express office to the Home. No one there claiming it, the package was opened, and being found to contain liquor the contents were spilt by Deputy Sheriff Amos of Chelsea, who was sent for. Now it is claimed the State officer had no right to spill the whiskey on United States grounds, and the owner, who went to the office after the liquor, asks that he be paid $5 for his loss.

Fire at Skowhegan.

SKOWHEGAN, May 13.—The house owned by Mrs. Louise Wilkins, on West Front street, Skowhegan, was destroyed by fire early Sunday morning. Loss, $1,000; insurance, $200.

Funeral of Orrin H. Staples.

BIDDEFORD, May 13.—The funeral of the late Orrin H. Staples occurred today, business being generally suspended. After prayers at the house, members of Dunlap Lodge of Masons, Mavoshen Lodge, Knights of Pythias, and Laconia Lodge of Odd Fellows, to the number of over one hundred, met in front of the city building and marched to Green street and escorted the remains to the Pavilion church, where the public funeral was to be held. Beside the hearse walked the pall bearers—Royal E. Gould, George F. Goodwin, Edwin Stone and Tristram Hanson, of Bradford Commandery Knights Templar; Tristram Goldthwait of Mavoshen Lodge, Knights of Pythias; G. N. Weymouth, of Laconia Lodge of Odd Fellows. At the church Rev. T. M. Davies read a portion of the scriptures and made a short address and prayer, after which the members of Dunlap Lodge of Masons performed their funeral rites. The remains were then escorted to Greenwood Cemetery for burial.

Matilda White's Suicide.

LEWISTON, May 13.—Matilda White, a house girl at David Sanborn's, Wales, committed suicide by taking poison last night, being found dead in her bed this morning. She was about 30 years old.

Columbia's Rapid Growth.

CHERRYFIELD, May 13.—Mrs. William Frye, of Columbia, gave birth to four children last Friday, two boys and two girls. They are all living, and are apparently healthy. The mother is 45 years old, and has been married twenty years. She has previously had only one child.

Died Among Strangers.

LYNN, Mass., May 13.—About 3.30, a young man about 30 years of age entered the Anderson Hotel and engaged a room, complaining of severe pains in the chest. This evening he died. A portion of his clothing was marked "William Cook." He was 5 feet 2 inches in height, and wore a checked suit and dark overcoat. Upon his person was found $24 in money.

A Virginia Hurricane.

HARRISONBURG, Va., May 13.—A terrific storm passed over this county Sunday. News of damage is just coming in. Lightning destroyed several barns and stables, and much stock was killed. A part of the county was visited by a severe hail storm, which utterly destroyed the wheat crop. Fences and houses were blown down, but no human lives were lost.

Vetoed by Governor Hill.

ALBANY, N. Y., May 13.—Governor Hill today vetoed the Saxton electoral reform bill. The message pronounces the bill, in its present form, an impossibility, and recommends the legislature to enact during the present session a bill embodying at least those provisions which the legislature and executive agree will tend to reduce the evils of political corruption.

EMPEROR AND CHANCELLOR TAKE PART

In the Discussion of the Troubles of German Miners.

Fresh Tidings of Violence Follow Contradictions of Earlier Reports.

A Plot Against the Czar—Other News From Beyond the Sea.

BERLIN, May 13.—A council of the Prussian ministry was held today to consider the question of the strike among the Westphalia coal miners. The session was a prolonged one. Prince Bismarck presided. At the height of the discussion Emperor William appeared in the council chamber and took an active part in the deliberations. It is reported the council decided to summon to Berlin a deputation from the mine owners and miners. They may submit to arbitration by the government. The semi-official press deny the reports of collisions between the troops and strikers Saturday and assert that no rioting occurred that day in any of the disturbed localities. Herren Schroeder, Bunte and Siegel, of the Westphalian company are here as the delegates of 100,000 miners. They were received by the Emperor William.

The strikers today tried to prevent the opening of the Altehasse and Sprockhoevel pits. Hussars dispersed the strikers and made many arrests. A man named Hennes, whose brother was killed in the riot at Schleswig, suddenly became insane today and killed a friend named Bleichert with a hatchet. The colliers at Waldenburg, in Silesia, have gone on a strike. Sixty striking miners in Prince Regent's colliery, Bochum, decided to resume work today, but were prevented by their fellow workmen, who drove them away from the pits with howls and curses. The military were summoned, and a sharp fight took place. The strikers were finally dispersed.

Among the Czar's Own Officers.

LONDON, May 13.—A conspiracy has been discovered among the military officers stationed at St. Petersburg. A large number of conspirators have been arrested. In their possession papers were found which prove that they intended to make an attempt to assassinate the Czar. A number of bombs were also found.

Socialists Victorious.

PARIS, May 13.—A municipal election held in Narbourne yesterday, resulted in a victory for the socialist candidates. During the progress of the election a fight occurred in the hall where the voting was carried on. A party of socialists headed by M. Ferroul, a member of the Chamber of Deputies paraded the street, singing the Marseillaise hymn.

Strike Threatened in Yorkshire.

LONDON, May 13.—The Yorkshire miners threaten to strike unless their employers concede an advance in wages. Fifty thousand notices have been distributed among the men, advising them to quit work unless the increase is granted.

The Bride of the Next Czar.

LONDON, May 13.—It is stated the Czarewitch will soon be betrothed to the Princess Helen, fourth daughter of the Prince of Montenegro. The Princess is now in a convent.

Mataafa's Fate.

BERLIN, May 13.—The Post says the work of the Samoan conference is progressing satisfactorily to all concerned. The question of the disposition of Mataafa remains undecided.

The Defense of Halaib.

SUAKIM, May 13.—The expedition sent to Halaib has returned, having completed the fortifications there, and left an adequate garrison for the defense of the place.

Foreign Notes.

The Earl of Dudley and Lord Lugan were among the persons arrested at the Field and Adelphi clubs in London, Sunday. They were there engaged in gambling.

A strike is threatened among among the tram car drivers in Berlin.

Metal workers in Madrid threaten to strike.

In a collision between villagers and gens d'armes at Erzentium yesterday, caused by a dispute over claims to private lands, seven villagers were killed.

WASHINGTON IRVING BISHOP.

Death of the Man Who Has Puzzled Two Hemispheres.

NEW YORK, May 13.—Mr. Washington Irving Bishop, the mind reader, died at 34 West Twenty-sixth street, shortly after noon today. For some time past he has been in failing health, but kept up his travels around the country. A few weeks ago the re-marriage to his present wife was chronicled, the second ceremony being performed in order to follow the divorce decision in the case of Mr. Bishop's previous wife. As a mind reader Mr. Bishop was wonderfully expert. He would discover the most carefully hidden objects merely by "thought transference" gained through holding the hand of the man who hid the object. Ten years ago Mr. Bishop created considerable of a sensation by his exposures of spiritualistic tricks. He then went abroad and gave exhibitions before the Prince of Wales, the Czar of Russia, the King of Sweden and other notables, receiving numerous decorations and crosses. Mr. Bishop's death was caused by hysteroid catalepsy. He went to New York on Friday and stopped at the Hoffman House. Last night he was invited to the Lambs' Club, where an entertainment and supper was being given. Mr. Bishop took part in the entertainment and gave a successful exhibition of his famous dagger trick. He then tried another trick entailing considerable mental effort, and was thereupon taken ill. He was carried up stairs and put to bed, but he recovered soon and was able to go through with the trick again. He was taken ill again, however, when Drs. Thorn and Lee were called in and pronounced Mr. Bishop to be in a very dangerous condition. The physicians remained with him all night, using electrical and other appliances. At 11 o'clock today he became much worse and death followed.

[Portland people will remember that it was to duplicate Mr. Bishop's performance that Charles H. Montague of Boston, gave exhibitions several years ago, including this city in his trips. Mr. Montague met with good success, explaining it by saying that he was directed to the hidden objects by the involuntary movements in the right direction of the persons whose hands he held and who had seen the articles hidden.]

ON THE WHEEL.

The Chicago Bicycle Tournament—The Female Racers.

CHICAGO, May 13.—The bicycle tournament opened today at the exposition building, the main event being the six day race for professionals, eight hours a day. The starters were Albert Shack of Chicago, John S. Prince of Omaha, W. F. Knapp of Denver, Neil Reading of Fort Omaha, A. J. Morgan of England, Robert Neilson of Boston, Ralph Temple of Chicago. At the end of the first eight hours, Reading, Knapp, Prince and Morgan were even for first place at 125 miles and five laps. Shack had 122 miles, Neilson 38 miles and 10 laps, Temple 47 miles and 7 laps, The two others had withdrawn.

NEW YORK, May 14.—At a. m. the score made by the female bicyclists was as follows:

	Miles.	Laps.		Miles.	Laps.
Oaks	129	4	Armaindo	111	7
Brown	129	4	Stanley	97	4
Lewis	124	4	Woods	68	3
Baldwin	110	2	McShane	48	2

The missing Dr. Cronin of Chicago is still missing. Toronto newspaper men can find no trace of him and believe that the story of his presence in that city was a canard.

Miss Mary E. Nickels, an aged and prominent resident of Portsmouth, N. H., died yesterday.

Hon. Robert C. Winthrop, who was born in Boston, but of recent years has resided in Brookline, was 80 years of age on Sunday. He bears his 80 years remarkably well, though he is afflicted with a slight deafness.

Linus E. Clark and Edward A. Palmer, employes at the Boston post office, were arrested Saturday charged with opening a package addressed to others. Both, it is said, were anxious to secure positions as post office inspectors and it is intimated that they had been on the lookout for some time for a package of questions which were to be used at the examination with the intention of getting one of the papers and then looking up the answers.

THREE HUNDRED NEGROES BAPTIZED.

Religious Enthusiasm Among the Black People of Richmond.

Experiences and Visions Described With African Fervor.

Specimens of Improvised Verse Sung by Dusky Converts.

RICHMOND, May 13.—Yesterday at eleven o'clock Richmond was almost without an adult negro inhabitant. The entire black population had gone to the banks of the James river, to see the biggest baptism ever known among the colored churches. About 300 were put under the water, and many more are to follow. This is the first result of the unprecedented revival going on here for three weeks in the colored churches. The scenes during the past week culminated Saturday night in such wild chantings, to the accompaniment of hand shaking, as to render sleep impossible in many parts of the city, the hot weather seeming to add to the intensity of their religious fervor. No colored person, no matter how irreligious, dares refuse taking the hand of one just converted, although this necessitates a pump handle movement until the convert relates the long story of the visions he has seen leading up to his conversion. Hence up into the small hours the loud singing of experience went on, the voice of the chanters often acquiring a peculiar staccato, in accordance with the vigor of the handshaking. The correspondent, standing under a window at one o'clock in the morning could catch from three different points such song lines as these:

I got de ole satyn in dis lef han',
An' I gwine to hole him, too;
An' in dis right hand' I got de righteous sword,
Whar I gwine to hole him, too;
An' ole satyn may call, and ole satyn may cry,
But I done wid him.

Then the voice of another brother, just happy, and impatient to relate his experience, broke in:

Hol' him down, hol' him down,
De Lamb said to me, I'se gwine to set you free,
The chains all off, de shackles done broke;

THE PRESS.

TUESDAY MORNING, MAY 14.

We do not read anonymous letters and communications. The name and address of the writer are in all cases indispensable, not necessarily for publication but as a guarantee of good faith.

We cannot undertake to return or preserve communications that are not used.

Boulanger in his safe retreat in London is talking war.

The Australian ballot bill now before the Connecticut legislature is meeting with the almost unanimous opposition of the Democratic press of that State.

The Hon. Joseph E. McDonald of Indiana declines to allow the use of his name in connection with the vacant chairmanship of the Democratic national committee. Indiana politicians know as well when to decline as when to accept.

The execution of the Bald Knobbers furnished a very disgusting object lesson of our bungling method of putting men to death by hanging. One rope broke and the victim was thrown to the ground, and had to be carried to the scaffold again. Another rope stretched so much that the victim's toes just touched the ground, and there he writhed and struggled until he was strangled to death.

Admiral Porter explains the absence of the Harriet Lane's log book from the archives of the navy department in a way very simple and very satisfactory to everybody but the doughty general from Massachusetts It seems the Harriet Lane was captured, log book and all, by the rebels. Butler's last sensation seems likely to turn out like that big sensation of the tanned human skin of which he was proprietor a few years ago.

It is a fact that there is three times as much land open for settlement in Arkansas as there was in the whole of Oklahoma, that the land is far more valuable, and that markets are more easily accessible. It is also a fact that the wastes of Oklahoma are so much more desirable, even to a boomer, than the fertile plains of a State dominated by Southern Bourbons, that Oklahoma is crowded and Arkansas is ignored.

The landing of the pilgrims will be celebrated once again next August when the Plymouth monument will be dedicated at the landing place of the Pilgrim Fathers. It was many years ago that a European philosopher asked how many thresholds of kings' palaces would crumble to unremembered dust before mankind would cease honoring that barren rock where a few poor and obscure emigrants landed. A definite answer is as impossible today as it was then.

The most recent reports from Henry George's lecturing tour are that in the places he has visited, the halls have proved too small to hold his audiences, and the authorities in some of the towns have not concealed their uneasiness at the proportions assumed by the crowds which have flocked to hear him. It is not difficult to believe this. The feverish and astonishing popularity of Mr. Georgein New York city at the time of his canvass against Hewitt shows what he can do among a population like that of the great metropolis. In England he finds in nearly every town numbers of such people as clustered around him in New York. The landless and the discouraged welcome anyone who promises them a remedy for their forlorn condition, and they are quite ready to see all the taxes shifted on to the land which is among them generally owned by landlords. Moreover, Mr. George is an able man and presents his theories very attractively thereby drawing many who estimate his plausible but misleading arguments at their true value.

The New York Press has been tiding over a dull time by inquiring of the prominent Democratic newspapers of the country their opinions as to who will be the next Presidential candidate of the Democracy. The Press finds a good many of them non-committal, the big Democratic dailies of New York city being in this category. As far as expression is given there is a considerable preponderance of sentiment in favor of the renomination of Mr. Cleveland. The Indianapolis Sentinel, the Charleston (S. C.) News and Courier, the Charlotte (N. C.) Chronicle, the Jersey City News, the Nashville (Tenn.) American, the Macon (Ga.) Telegraph, the St. Louis Republic, the Wilmington (Del.) Every Evening, the Springfield (Ohio) Democrat, the Des Moines (Iowa) Leader, the Omaha (Neb.) Herald, the Chattanooga Times, the Erie (Pa.) Herald, the La Crosse (Wis.) Chronicle, the New Haven (Conn.) Register, the Galveston, (Tex.) News, and the Fort Worth (Tex.) Gazette are all for Cleveland. Hill has some support in the interior of New York, and one paper in Kansas, one in Minnesota, one in Pennsylvania and one in Connecticut favor him. The Chicago Herald wants John M. Palmer. The Hartford Telegram believes in Whitney. The Concord People and Patriot suggests Speaker Carlisle.

The Concord People and Patriot, the leading newspaper ally of the Concord railroad, declares that the main result of the taking of the Boston, Concord & Montreal from the Boston & Maine will be the establishing of the independence of the Merrimack valley or central New Hampshire system of railroads, and the continuance of two great competing lines between the mountains and the seaboard, instead of the consolidation of these and the eastern system under a single management. This, the People and Patriot seems to think, will be much better for the State of New Hampshire than would be the establishing of a monopoly which would render the "entire State subject to a single railroad power, with objects and purposes in a large measure foreign to its interests." This no doubt is so, but the position of New Hampshire is not going to be all pleasant with two great corporations, enemies and rivals, coming to her legislature for this and that, as they are bound to do at almost every session. Two obstreperous railroads are not much of an improvement over one, in anything but rates of freight and passenger fares. These latter considerations, however, are the great considerations with the people of the State; and they will put up with legislative trials with equanimity if competition keeps rates down.

It Can't be Done.

Mr. William F. Royall of Virginia comes out boldly in favor of the disfranchisement of the negro, and pledges himself if he can get into Congress to work for that end. Mr. Royall believes the North can be prevailed upon to consent to the repeal of the Fifteenth amendment, if the South will agree to allow her electoral votes and congressional representation to be cut down to the basis of her white vote. Mr. Royall is evidently a very sanguine and a very misguided man. In the first place no Congress could be elected pledged to the repeal of the Fifteenth amendment; and in the second place it would be utterly impossible to get two-thirds of the State legislatures to consent to the disfranchisement of the black man. If the negro is ever disfranchised by law it will be through an educational test set up by the States. Such a test would undoubtedly disqualify from the suffrage a large per cent. of the colored race of the South, but it would also disfranchise a considerable per cent. of the white population. The disfranchisement of the colored voters of the South in this way is within the bounds of possibility, though beyond the bounds of probability; but their disfranchisement in the way Mr. Royall suggests is outside the limits of both.

They Must Come to Portland.

It was announced some time ago that the subsidies offered by the Canadian government for fast Atlantic and Pacific steamship lines, had been given to the Andersons and that they were to put on the necessary fast vessels if they could find the necessary capital. The amount necessary to buy and equip the vessels required by the terms of the subsidy is estimated at little less than twenty million dollars; and these vessels would be required to call at a French port, to touch at Plymouth and Southampton instead of Liverpool, and to stop at Halifax for a winter port without continuing to an American port. The announcement is now made that under these requirements the Andersons are unable to find the capitalists who are ready to aid them in establishing the line, and that the scheme must fall unless the Dominion government shall make the terms of the subsidy more favorable. Speaking of this failure the Toronto Globe says that a Canadian fast Atlantic service, to be successful, must be conducted freely from the best port in England and must be allowed to go on from Halifax to Portland and that the denial of these advantages will cost the whole half million subsidy. Even by Canadian subsidies a silken purse cannot be made out of a sow's ear, in the opinion of the leading journal of Western Canada.

CURRENT COMMENT.

REVISION OF A PROVERB.
[Boston Transcript.]

A recent controversy suggests a new reading of an old maxim; or two readings, rather from which you can choose as inclination tends—

A man is never a hero to his own { Butler / Porter.

An Exhibition by Mr. Fox's Pupils.

To the Editor of the Press:

Will you kindly grant me space for a few words in reference to the students' work now on exhibition at 478½ Congress street.

The first room contains academic sized drawings from the skeleton, from the anatomical figure and from the full length antique, together with some rudimentary work in clay and modelling from the full length antique.

The second room contains drawings of heads from the antique, and drawings of heads from life in charcoal and crayon, together with studies of heads in oil and clay, also from life. In this room are the original compositions arranged in groups, with the title of each group under it. The work of the afternoon sketch class will be found in the first room. The second room also contains a decorative panel composed of two designs in pen and ink, one of the "Mayflower," by Miss Florence Carpenter; the other, the "Arms of the State of Maine," by myself. This panel was intended for needlework, and has already been embroidered by Miss M. E. Fairweather.

In arranging the work in clay in such a manner as to show its influence upon the drawings, I have tried to follow an order, from the rudimentary sketch upward, though in the actual application of modelling to daily work I have never been able to establish any defined system. Each individual has his own needs, which vary according to the moment, and clay seems to be able to adapt itself to that moment and to be laid aside when the point has become fixed. Thus it seems a material peculiarly applicable to the study of anatomy both in fixing the forms upon the memory and making that part of the student work less dry. In a general way its usefulness might be classed under three heads:

The first, as stated above, as an aid to memorizing form, especially noticeable in modelling from the round, inasmuch as each side must be remembered while the other is being made.

Second—Its usefulness in making small figures in a given movement for draping, and as an aid for getting actions not easily sustained by the model.

Third—The breadth given to the comprehension of the student by understanding two intimately allied arts, as far as they are based upon the human figure.

As the laws of one are in many cases essential to the other, that is the law of the perspective of the figure and of taste or judgment in mechanical effect, might not our ability to understand the bas relief be in part the measure of the solidity of our technical knowledge? As the meeting ground of two arts there must be not only difficulty attendant upon its study, but some danger. The latter can be overcome only by constant association with the works of the "best masters." Want of room in the present exhibition has made it impossible that student and master work be exhibited together; but some of the important bas reliefs have been left upon the walls, notably the Madonna and Child by Donatello. CHARLES L. FOX.

Mutual Union Telegraph Office.

To the Editor of the Press:

From recent newspaper articles one would be led to believe that the office of the Mutual Telegraph Company, at the foot of Exchange street had been discontinued altogether. This is not so. The name has only been changed. The office will be continued as a Western Union office. Business will be conducted in the same manner and by the same force as heretofore.

PROPOSALS.

Proposals for Subsistence, Quartermaster's and Hospital Stores.

OFFICE TREASURER,
EASTERN BRANCH, N. H. D. V. S.,
TOGUS, Me., May 10, 1889.

Sealed Proposals, subject to usual conditions, will be received at this office until 12 o'clock M., June 11, 1889, for furnishing and delivering at this Home the Subsistence and Quartermaster's Stores, required for the Fiscal Year commencing July 1, 1889, and ending June 30, 1890, consisting in part of the following, viz.: Tea, Coffee, Groceries, Flour, Fresh and Corned Beef, Mutton, Veal, Fresh and Salt Pork, Smoked and Corned Shoulders, Hams, Fresh and Salt Fish, Butter, Cheese, Lard, Onions, Potatoes, Corn, Oats, Shorts, Household Articles, Plumbing Material, Tobacco and Coal.

And Proposals will be received until June 13th, 1889, for Hospital Supplies.

Schedule giving the kind and estimated quantities required, particulars as to conditions to be observed and terms of contract and payments will be furnished on application.

JOHN D. ANDERSON, Treasurer.

NOTICE TO CONTRACTORS AND BUILDERS.

SEALED PROPOSALS for the entire construction of the proposed enlargement of the Maine State Capitol will be received by the Commission on such enlargement, at Augusta on and before the 16th day of May next, at 12 o'clock noon, and also separate proposals for the same, under the following heads and specifications, to wit:

1. Excavations, grading and drainage. 2. Foundations. 3. Concrete. 4. Granite, hammered and of a color in harmony with the present building. 5. Granite, rough or rock face, of a similar color. 6. Asphalt. 7. Brickwork and fireproofing. 8. Iron work and stairs. 9. Slating, gutters, conductors and skylights. 10. Plastering, stucco and cement work. 11. Marble work. 12. Carpenter work. 13. Elevator. 14. Steam heating and ventilating. 15. Plumbing. 16. Gas piping. 17. Bells and speaking tubes. 18. Painting and glazing.

The proposed enlargement is to be a fire-proof building about 80 feet square, attached to the present building, 3 stories high, with a base ment and a slate roof.

Plans and specifications will be ready for examination at the State House, Augusta, and at the office of Brigham & Spofford, 10 Milk St., Boston, on and after the 7th day of May next.

The Commission reserves the right to reject all proposals.

C. S. HICHBORN,
Secretary.

General and Nervous Debility.

SYMPTOMS:
Indisposition to Exertion, Mental Depression, Languor, Love of Solitude, Weariness, Defective Memory, Confused Ideas, Restlessness, etc., etc.

GENERAL DEBILITY is a class of diseases that baffles the physician, and often the mental powers are exhausted, where no pain or irritation can be discovered, and yet the sufferer is slowly wearing out. When it proceeds from nervous irritation, or nervous exhaustion, it is called NERVOUS DEBILITY. This is the growing malady of the times, owing to the fast age in which we live, and the various indiscretions and lack of observance of physical laws.

The more common manifestations of Nervous Debility are mental depression, love of solitude, defective memory, confused ideas, restlessness, sleeplessness, often dimness of vision, hurried and difficult breathing, emaciation, a general loss of vitality of body and brain. Any imprudence against the laws of our being, or any weakening drain upon the system, may cause this difficulty, with its long train of distressing symptoms.

INGALLS' VIGORINE
will purify the blood, tone up the system, thus removing all these troubles.
Price, $1.00; Six Bottles, $5.00. All Druggists.

FIRST MORTGAGE
Six Per Cent. Gold Bonds
OF
The Denver City Cable Railway Co.,
DUE 1908,
Interest Payable Jan. and July 1, in New York.
COUPON AND REGISTERED.
Central Trust Company of New York, Trustee.

Secured by the first and only mortgage of the Denver City Railway Company, a corporation now operating by horses under a charter giving exclusive horse-car rights; fifteen car lines over 42 miles of track in Denver, a city of 100,000 people.

The bonds are further secured by a first and only mortgage upon nine and one-half miles of double track of cable road with land, viaducts, machinery, etc., now being constructed by the Denver City Cable Railway Company, which latter company owns the horse car lines, and will operate the two systems in connection with each other. Particulars and pamphlets upon application.

PRICE PAR and accrued interest with the right to advance the same without notice.

BLUFFTON LAND, Ore & Furnace COMPANY,
Bluffton, - - Ala.

S. F. SMITH, President.
J. C. KIBBEY, Treasurer.
J. H. PLUMMER, Gen Manager.

Capital, - - $1,000,000.
Par Value of Shares, - $25.

A developed property, earning a dividend owned and managed by Northern men. Undoubtedly the most wonderful deposit of ore in Alabama.

Read the opinions of the following gentlemen:

Mr. Fackinthol, expert for the Cooper Hewitt Iron Co., of New York, says "of all ore deposits I ever saw this is the greatest."

Prof. Robinson of Bowdoin College, after a recent visit to Bluffton and having made analyses of the ore, says "I have no hesitation in saying that Bluffton contains a practically unlimited supply of ore suitable for making good iron and is exceedingly favorably located for mining."

The Critico Furnace of Chattanooga, one of the best coke iron furnaces in the South, uses some fifty tons daily of this ore and their testimony is, that it is of the best quality and their orders are constantly calling for larger quantities.

Bluffton is situated in the northeastern part of Alabama, on the main line of the East Tennessee, Virginia and Georgia Railroad.

For the purpose of building a coke iron furnace and further development of the property, 8,000 shares of the stock are offered for sale. Price for the present,

$14.00 PER SHARE.

Also Town Lots for Sale.
PRICE LIST ON APPLICATION.

$30,000.
Colorado Water Supply Co.,
FIRST MORTGAGE,
Seven Per Cent. Bonds,
DUE 1899.

Some $225,000 of these bonds have been taken for investment, in Maine, New Hampshire, New York and Europe, by Savings and Trust Institutions and other careful investors.

This company owns and controls some 80 miles of constructed and natural water courses, costing $450,000. It has prior rights to all the waters of the Dolores River (the only source of supply in that section) for purposes of irrigating lands, thereby insuring successful crops always; for supplying cities and towns along its line with water for domestic uses, for fire protection, and for manufacturing purposes. It is doubtful if a more comprehensive or valuable charter is owned by any similar company in the West.

The company has cash in Treasury, and is backed by strong capitalists in this city and elsewhere.

We offer the above $30,000 bonds at 103 and interest.

Half Fare and late trains to all holding Jubilee tickets; order tickets at once. my14dtw

FINANCIAL.

Home Investment!
$20,000
Wakefield, Mass., Water Co.
CONSOLIDATED MORTGAGE 5s.
Due February 1, 1906, optional February 1, 1896

The Wakefield Water Company is a corporation chartered under the laws of Massachusetts and furnishes water for fire protection and domestic purposes to the towns and inhabitants of Wakefield and Stoneham, in Middlesex county, Mass. These are two suburban towns, about ten miles from Boston, on the Western division of the Boston & Maine railroad, and have together a population of 12,000 to 14,000.

The capital stock of the Wakefield Water Company authorized is $300,000, and the amount issued December 1, 1888, $50,000, fully paid up. These $20,000 bonds are a part of a consolidated issue of $300,000 5 per cent bonds, of which $200,000 are held by the trustee under the terms of the trust deed and can only be used to redeem $200,000 6 per cent bonds which were then outstanding and are optional in 1893, making the bonded indebtedness of the company, secured by mortgage upon the plant, the sum of $300,000.

In addition to the mortgage bonds mentioned, there have been $100,000 Debenture bonds issued, which, of course, are subject to the mortgage bonds, the proceeds of which have been expended on the works, thus adding to the value of the plant.

The water is taken from Crystal Lake, which is an ample supply for the demands upon the company, and the water is pure and suitable for domestic purposes. The only other available water supply in that immediate vicinity is controlled by the Water Company.

The pump house is of brick and of good size; the machinery is of standard make. There are two pumps and two boilers, each of sufficient capacity to supply the works alone, so in case an accident happens to one of them there will be no interference with the water supply. The water is pumped directly into the mains, and through them to an iron stand pipe 40 feet in diameter and 60 feet in height, which gives a good reserve supply.

There are 47 miles of main of 12 inches in diameter and less, there being a large amount of 12-inch main and only a small amount of less diameter than 4 inches. The normal pressure varies according to location from 50 to 80 pounds from the stand pipe pressure.

The Company has been operating its works for five years and has met with success from its commencement.

There are 135 hydrants, and the rental from these from the two towns amounts to $6,740. There are about 1,500 taps, and the revenue from private consumption was, in December, 1888, at the rate of $22,060 per annum, making a total revenue per annum of $28,800. Therefore the financial condition is as follows:

Gross earnings		$28,800
Expenses	$5,000	
Interest charges on mortgage bonds	17,000	
		22,000
		$6,800

The Company this Spring will extend its pipe line about 7½ miles which will largely increase its revenue.

After a careful personal examination of the works, we purchased the within described bonds and can recommend this security as being in our judgment particularly safe for Trust Funds.

CITY ADVERTISEMENTS.

CITY OF PORTLAND.
Ordinance Relating to Dogs.

EVERY owner or keeper of a dog shall annually cause it to be registered, described, and licensed for one year in the office of the city clerk, by paying therefor to said clerk the sum of twenty-five cents, and shall cause it to wear around its neck a collar distinctly marked with the owner's name and registered number, such shall pay into the city treasury for such license one dollar.

Whoever keeps a dog contrary to the provisions of this ordinance shall forfeit ten dollars to be recovered on complaint to the use of the city.

All fines and penalties provided in the preceding sections may be recovered on complaint before any court of competent jurisdiction in this city.

All other ordinances relating to licenses for dogs are hereby repealed.

It shall be the duty of the city marshal to cause all dogs to be destroyed which shall be found at large within the city, without a collar, as required by these ordinances.

In case any dog shall be found loose or going at large, contrary to any of the foregoing provisions, the owner or keeper thereof, or the head of the family or keeper of the house, store, office, or other place where such dog is kept or harbored, shall forfeit and pay a sum not exceeding ten dollars.

CITY OF PORTLAND.
IN BOARD OF MAYOR AND ALDERMEN, April 15th, 1889.
Ordered, That the City Marshal be and he is hereby directed to cause to be enforced the ordinance relating to the licensing of dogs.
Read and passed.
Attest: GEO. C. BURGESS, City Clerk.
CITY MARSHAL'S OFFICE, April 16, 1889.
In accordance with the above order, the above ordinance relating to dogs will be strictly enforced by me, WILLIAM H. GREEN, City Marshal.

Raymond.

ANNIVERSARY OF SONS OF TEMPERANCE AT EAST RAYMOND.

Lakeside Division No. 8, S. of T., of this place, celebrated in a splendid manner the second anniversary of their existence at their hall on Saturday evening and Sunday the 11th and 12th. Saturday evening there was a good attendance, ninety-nine being present. Remarks were made for the good of the order by several temperance workers, including Rev. Mr. Southwick of Lewiston, and Storer S. Knight, Esq., of Deering. Sunday the weather was all that could be desired and the hall was crowded to overflow. At nine o'clock a praise meeting was held led by Mr. Knight, in which a goodly number participated, after which the audience listened to a very able address by the noted temperance worker of Cumberland County. Storer S. Knight, Esq., of Deering, register of deeds. After this the meeting adjourned for two hours in order to gratify the inner man. The sisters of this division had prepared a bountiful repast, to which all did ample justice. A praise meeting at 1.30 o'clock was led by Mr. Seely of Portland, after which A. J. Chase, Esq., of Portland, addressed the large audience in his usual happy and impressive manner. The singing by a select choir was excellent, led by Oliver P. Jordan, Mrs. Carrie E. McLellen presiding at the organ. Visitors were present from the towns of Naples, Casco, Gray, New Gloucester and other places. Among the many visitors were Walter Southworth and wife of Edes Falls, Mr. Skillins and wife and Mr. Morse and wife of Gray. James A. Strout was president of the occasion and presided with his usual dignity. Orrin B. Lane was secretary. In the evening Rev. Mr. Southwick preached an interesting temperance sermon from Gen. 37-33. After a few remarks by Cyrus S. Witham, president of the Juvenile Loyal Temperance Legion of this place, and singing by the choir the meeting closed.

Lakeside Division was organized on the 14th day of May, A. D. 1887, with fourteen charter members. It has been very successful, has had a rapid growth and now numbers about eighty members.

South Bridgton.

Miss Clara H. Berry of this place, who for two or three years past has been stopping in Portland is home on a brief visit.

The face of nature is verdant and very beautiful here now. Bridgton is a picturesque town, and no part can well boast of more loveliness at this season of the year either for scenery or climate. It is a very fine region to summer in and people are beginning are beginning to realize it. The spring is unusually forward and evidently to draw the line between it and summer will be a difficut thing to do, so softly will the one be blended in the other.

Mr. Wm. Moulton, our local mason, has been rushed with work at his trade of late, albeit he has considerable farming to do.

Mr. Darwin Ingalls, who for several years has been an invalid from the effects of rheumatism and kidney troubles finds himself able to ride out occasionally this spring. Mr. Ingalls owns one of the finest farms in this region, upon which there is much valuable wood and timber and a fine sap orchard, where he yearly gets some seven hundred buckets.

Selectman Thomas B. Knapp is now busily engaged with his associates in town affairs, which are taking most of his time at present.

Mrs. Alvin Ingalls has been quite sick but under the care of Dr. Torrey is now more comfortable.

Generally speaking it is quite healthy here now.

Now is the time to "bob for eels," and jab for suckers. The boys realize it evidently.

Mr. Aubrey G. Perry and wife are making a brief sojourn at Mrs. Perry's father's, Wm. Moulton's in this place. Mr. Perry is in the employ of the Metropolitan Life Insurance Company of Boston with headquarters at 25 Congress street, Boston.

Apple trees are blossoming fairly well, while plums and cherries promise a full crop.

Oxford.

SALE OF THE LAKE HOUSE—GYPSIES TROUBLESOME.

The Lake House has been purchased by Llewelyn Wardwell, and will be occupied by himself and father-in-law, Sheriff Chadbourn.

A member of the Ku Klux Klan came to our village last week and made a furious assault upon the local reporters, ordering them to leave town within three days.

A band of gypsies passed through town a few days since with several emaciated and starving horses, begging, stealing and making themselves disagreeable generally. One of their number entered the field of Mr. Heath at North Norway and asked for hay to feed their horses, but was denied. "Their horses give me a chew of tobacco," he persisted, which was handed him. "Now lend me your knife to cut it," he continued. The knife and tobacco he immediately transferred to his pocket and prepared to depart, but was quickly collared and brought to the ground. He fought and struggled for some time, but all to no purpose, for he was compelled to disgorge, and after receiving a sound cuffing departed. These nuisances now come within the reach of the tramp law, and should be made to feel its power.

Hon. J. S. Wright of Paris will deliver the oration at this place Memorial Day.

Henry N. Eaton, a veteran of Co. I, 7th Maine Regiment, is now the probable candidate for postmaster. Mr. Eaton is a man of unblemished character and well qualified for the position.

Scarboro.

The summer houses are getting ready to open for the season. A large part of the rooms are engaged and books now as if we should have a very successful season. Mr. Ira Foss of the Checkley House, drove home a fine pair of grays last Friday. He will use them as carriage horses.

Shad are very plenty in the Nonsuch river this spring. Every evening finds the banks lined with fishermen with their dip nets. The seals are very plenty and destroy a large number of shad and other fish.

A new school house will be built at Clark's Point this summer.

No corn will be packed at the Clay Pits this season. Walter B. Nutter will pack at Pleasant Hill and a large number of acres will be planted for Twitchell & Champlin of Portland.

The officers of the Scarboro and Cape Elizabeth Fair Association met at Pleasant Hill last week. It was decided to hold the fair the second week in October. Several changes will be made in the premium list.

Saturday evening was children's evening at Oak Hill Grange and the little folks were out in full force. The exercises consisted of that we have not seen the new railroad yet, but hope they haven't given it up. Some of the grandest water powers in the world are here.

Repairs will commence on the Union church soon. It is proposed to put it in first class shape.

O. P. Chaffin probably has the largest field of oats ever sown in this town, 15 acres in one field.

Waterville.

H. R. Hatch, Colby '90, has been elected editor-in-chief of the Colby Echo for the ensuing year.

C. F. Meguire, '89, leaves College Monday for Jefferson, where he will teach a short term of school.

Dr. Boutelle has greatly improved the appearance of his residence on College street. He has removed the iron fence, graded the lawn and put in some granite steps and walk, greatly beautifying the appearance of his edifice.

"On the Trail, or Daniel Boone the Pioneer. is the attraction in Waterville this week. The play is devoid of the blood and thunder which is expected to characterize such a play as this. It is a humorous play and abounds in comedy, singing and dancing. There will be a good house.

Otisfield.

GOT HAPPY AND SMASHED THE WINDOWS.

Edwin Mowry, while in a state of intoxication, called at the store of C. T. Hancock and finding the proprietor absent smashed the glass door and fled. After recovering from his drunk he returned and prepared to settle. Mr. H. refused to settle, but took him before a magistrate, where he made oath that he purchased two quarts of cider of the notorious James Gerrish, and a pint of rum of his daughter, both of which he drank. Gerrish has long kept a notorious tippling house, but up to this time has managed to evade the law.

Frank E. Morse, a veteran of the 17th Maine, is in very poor health and is confined to the house from the effects of a wound received at the battle of Spottsylvania Court House.

South Paris.

Sylvan Shurtleff, Esq., who has been spending the winter has returned and had his fine residence painted.

There seems to be but few wool buyers. They seem to think that 22 cents per pound will be the price.

The workmen at the Paris manufactory are commencing work at 6.30 a. m., in order to give them the Saturday afternoon holiday.

Apple trees will blossom earlier than for several years.

Several of our citizens are at the Lakes.

Mrs. O. W. Bent, formerly of Minneapolis, has opened a millinery store here.

Welchville.

Dr. W. W. Barnes of Andover has bought the Knights of Labor hall building which will be fitted up for a dry goods and grocery store; also drugs, medicines and fancy goods.

Several new houses will be built this season. Rents are scarce and high.

George Staples, who severely wounded his ankle a few weeks ago, is still on crutches.

Standish.

BONNY EAGLE NOTES.

They are to commence making headings at Came's mill Monday, and it is expected that the saw mill will be in operation by the last of the week.

WIT AND WISDOM.

Both or Neither.

"Strange," said Old Baystate, "the awful cheek of a man in love. How is it, do you suppose, that a man who doesn't dare to ask you for $50, walks right up to you and asks you for your daughter?"

"Don't know," said young Sheepranche, "unless it is because he's afraid you won't let him have the fifty."—Burdette.

A LITTLE LEAVEN LEAVENETH THE WHOLE LUMP.

A disease in one part of the body will eventually fill the whole body with disease. Every year or two some part of the system grows weak and begins to decay. Such part should be removed at once, and new matter be allowed to take its place. There's no need of cutting it out with the surgeon's scalpel. Purge away the old, diseased and wornout parts with BRANDRETH'S Pills. Then the new body will take care of itself.

What He Missed:

Cashier Boggs (in Toronto)—Hello! what's the matter? You are all broken up. Remorse, eh?

Cashier Jogger—Not much. But I've just read in the papers that old Dividend, the president of our bank, said if I had waited a week longer I could have stolen twice the amount.—Shoe and Leather Reporter.

Seemingly Eradicated

With repeated and powerful doses of quinine, chills and fever, in some one of its various forms springs into active existence again often without the slightest apparent provocation. To extinguish the smouldering embers of this obstinate and recondite malady, no less than to subdue it when it rages fiercely in the system, Hostetter's Stomach Bitters is all sufficient. When every resource of the pharmacopœia has been exhausted against it in vain, the Bitters conquer it—will remove every lingering vestige of it. Nay, more, the Bitters will protect those brought within the influence of the atmospheric poison that begets malarial disease, from its attacks. Disorders of the stomach, liver and bowels, are among the complaints to be apprehended from the use of malaria-tainted water. These are both cured and prevented by the Bitters. Rheumatism, constipation and renal complaints yield to its action.

A little four-year-old girl was having her dollie dressed and when it came to the bonnet the little maid pouted for feathers, refusing to be satisfied with the flowers which her mother had brought to her.

"But they don't wear feathers now, dear," said her mother.

"I can't help that, mamma; thinks inside of me isn't like the thinks inside of other folks."

■For A Disordered Liver try Beecham's Pills.

The Old Man was "Fly."

"Absalom, my son, what was that note the messenger just brought you?" inquired old man Hardtaque.

"Nothing in particular, father, only a billet doux from a friend."

"Indeed! How much did he say there was doux?"—Judge.

The People

are not slow to understand that, in order to warrant their manufacturers in guaranteeing them to benefit or cure, medicines must possess more than ordinary merit and curative properties. Dr. Pierce's Golden Medical Discovery is the only blood medicine sold through druggists, under a *positive guarantee* that it will benefit or cure or money paid for it will be returned. In all blood, skin and scalp diseases, and for all scrofulous affections, it is specific.

$500 reward offered by the proprietors of Dr. Sage's Catarrh Remedy for an incurable case.

Car wheel manufacturer (passenger in fast express train, which is making a long stop)—Look here, what are you striking those car wheels for?

Man with hammer—To see if they are sound yet.

Car wheel manufacturer (nervously)—Well, I wish that you would please not hit them quite so hard.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria.

An Authority on Bonnets:

Miss Goodheart—Well, I declare! You are right. The idea of a man knowing so much more about ladies' hats than a woman! I see by reference to the Fashion Journal that the style of hats you have just described is the very latest from Paris. And to think I didn't know!

Mr. Nicefellow—I ought to know. I paid $2 the other evening for the privilege of studying one at the theatre.—N. Y. World.

A woman who is weak, nervous and sleepless, and who has cold hands and feet cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest.

"Yes," said Dumley, proudly, "I was a soldier in the war of the rebellion, and if I do say it my self, I made a good one."

The thrill of admiration which was about to start through the party was suddenly stopped by Featherly, who said, musingly:

"Let me see, Dumley, it was in '64, wasn't it, that you were drafted?"—Epoch.

A man's wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

Jones (to Brown, who just dropped in to borrow a fiver)—Well, I'll do it this time; but I wonder you are not ashamed to be always in debt. Look at me. I don't owe a penny.

Brown—Dare say not, old man. You have not a borrowing face. Nobody would trust you with their money.

You cannot expect a man to be good natured when he is bothered with a constant cough or cold. Keep peace and happiness in the family by giving him a bottle of Adamson's Botanic Cough Balsam. It will cure every time.

FINANCIAL AND COMMERCIAL.

PORTLAND WHOLESALE MARKET.

PORTLAND, May 13. 1889.

The Flour market continues quiet and steady with a moderate inquiry; prices unchanged and firmly held. Corn and Meal easy at a slight decline in figures; Sacked Bran is also weak and about 50c lower. Provisions steady and without feature. Pea Beans have declined; Yellow Eyes unchanged. Oranges are higher at 6 50@8 00 for Valencias. Apples very scarce.

The following are to-day's closing quotations of Grain, Provisions, &c.:

BEFORE JUDGE WEBB.

MONDAY.—United States vs. steamer Henry Morrison of Bangor. Libel of information for forfeiture of vessel under revised statutes section 4179 for illegal change of name. Decision for the government.

Bird, District Attorney. Putnam.

MUNICIPAL COURT.

BEFORE JUDGE GOULD.

MONDAY.—George A. Jackson. Intoxication; fine $3 and costs.

Ellery Connors. Intoxication; fined $3 and costs and in addition 30 days in county jail.

Catherine Foote. Intoxication. 30 days in county jail.

Kate Owen. Intoxication; committed for sentence.

Justin Libby. Common drunkard; committed for sentence.

Mary Coyne. Search and seizure; fine $100 and costs. Appealed.

BRIEF JOTTINGS.

A cold, chilling fog prevailed a part of yesterday.

The Sheridan Rifles have taken their new armory in City Building.

Householders will remember that there will be a short supply of Sebago water today.

Mr. Jones, who was mentioned as meeting with an accident on Jewett's train, Mr. Jewett states has not been on his train for six months.

The County Commissioners went to Harpswell yesterday afternoon to see about laying out a highway, and will not be back until Thursday.

Branch No. 657, of the Irish National League, will hold their regular meeting in I. A. R. A. Hall on Plum street, at 7.30 p. m. today. A full attendance is desired.

The steamer Tremont, of the Portland Steam Packet Company's line, looks like a new boat. She has been handsomely painted and put in first class condition for summer business.

The Megantic Fish and Game Club will have their annual meeting at the Preble House today, take a sail in the afternoon, and return home to Boston on tonight's boat.

The British schooner Cecelia, from St. John, N. B., for Boston, arrived in port Sunday with a cargo of lime on fire. The vessel was anchored in the stream and sealed up to extinguish the flames.

Sunday morning, at about 9.30 o'clock, Hose 3 was called by telephone to Mr. Lucien Snow's house on Carroll street. The fire, which originated in a chimney, and which did no damage, was soon extinguished.

Two cases of scarlet fever were reported to the Board of Health yesterday morning, one on Adams street and another near by on Congress street. Prompt measures to stop its spread were at once taken by the Board.

The fruit store of E. Hopkins, on Commercial street, was broken into Saturday night and a quantity of boxes of cigars and tobacco, some pipes, pocket knives and a half-dozen plated watch chains were stolen. John Ward's restaurant, on the same street, was also entered, and a quantity of cigars taken.

Mr. H. K. Johnson, the contractor, is erecting a three story building on the corner of Oxford and Mayo streets, for E. T. Merrill of Saccarappa. The ground floor will be fitted up as an apothecary store and the upper stories arranged for tenements. Mr. W. H. Sargent, the grocer, is erecting a two-story double dwelling house on Cumberland street, near Smith street.

On the corner of State and Congress streets a wire was strung around a grass plat within the street limits, in order to keep people from walking across it. Mr. Henry Taylor, in running to catch a street car, not seeing the wire, was thrown headlong, striking on his face in the gravel. He was badly cut and received painful bruises. Complaint was made and the obstruction was at once removed.

MUSIC AND DRAMA.

NOTES.

Jee Wheelock is at the Grand Opera House, Boston, with "May Blossom."

Charles A. Hoyt, of Rag Baby fame, is ill from overwork, and has retired to his New Hampshire home for a few week's rest.

The old Ambigue Theatre in Paris is about to be pulled down. In 1769 it was a variety theatre, but it has been an historical home of the melo-drama for a century.

The new opera "Asrael," by Franchetti, has made a great hit at the Theatre Paglilano, Florence, Italy. The story is supernatural, and lends to grand spectacular effects, of which all advantage is taken. The music all through was enthusiastically received, and earned no fewer than eighteen calls for the talented young composer.

"Bluebeard, (Jr.," which Mr. David Henderson will produce at the Chicago Opera House during the summer promises to be one of the most gorgeous spectacles ever produced in this country. The costumes for the principals have been designed by Pilotes, and Mr. Henry Dazian, the well known costumer, says the designs are among the best he has ever seen during his long experience in New York.

Seward B. Thrasher.

The death of Seward B. Thrasher, which occurred at his home on Mellen street early Sunday morning, removes from this community one of Portland's most respected citizens. As a business man, Mr. Thrasher played an active part a number of years ago, his place of business being in Free Street Block. On account of poor health Mr. Thrasher retired from business early in life, and removed to Newton Highlands, with his family. But recently he had returned to his old home in Portland. He was a very genial, warm-hearted man, a kind husband, affectionate father, and a true friend, and was greatly respected by all who knew him. It is with feelings of sadness and regret that his friends learn of his death, and his family have their deepest sympathy. Mr. Thrasher leaves a widow and two daughters.

Letter Postage.

An error appears in last evening's Advertiser in reference to the collection of postal dues. The statement was there made that Postmaster General Wannamaker had notified postmasters that letters on which postage had not been prepaid should be forwarded to their destination and the postage collected from the recipient. Postmaster Palmer says the Postmaster General cannot do this since an act of Congress requires the prepayment except in cases of drop letters, or special delivery letters where the special stamp has been attached.

Bicycle Railway Cars.

Hon. E. Moody Boynton is having made for him sixteen bicycle railway cars at Amesbury, Mass. The two bicycle locomotives made by the Portland Company are in the setting up shop at those works, ready to be sent away when orders come for them. It is said that Mr. Boynton will have a bicycle railroad constructed at Coney Island.

The Lidback Marine Engine.

Mr. Lidback, the machinist, is putting one of his marine engines and boilers into a fine boat for Mr. W. H. Thaxter. When the work is done it is calculated that this will be one of the fastest steam launches afloat. The boat is 35 feet long. Mr. Lidback is also making a 70 horse power marine engine for parties at Mt. Desert.

AN INTERESTING PLACE.

What May be Seen in the Portland Company's Pattern Store House.

One of the most interesting departments of the Portland Company's machine and locomotive works is the pattern store room. When an order is received for a locomotive or machine, or part of machine of any kind, if it be of new design, it is necessary for the draughtsman to make a plan of the machine or part of machine. These plans are sent to the pattern room, where skilled woodworkers make in accordance with the plans exact models in wood of the different parts of the machine. When the pattern makers have completed their task they have a complete wooden machine. The patterns are sent to the foundry where moulds are made from them, the molten iron is turned into the mould, and as soon as it is hard the casting is completed with the exception of a few finishing touches, given after it is removed from the mould. The wooden pattern or model is taken from the foundry to the pattern store room, where it is put away on a shelf to remain until needed again. Perhaps it will never be used again. The machine of which it is a part may go out of use or prove a failure, or that particular part of the machine may be superseded by a part of different and improved design, in which case the old wooden pattern will never be used again unless the corresponding part of the machine should break before the whole was worn out. Nevertheless the old wooden pattern, be it a wheel, a faucet, a bolt, a peculiar steam pipe, a cylinder, a propeller, a paper machine, or any other machine, or part of any machine, under the sun, is put away for safe keeping, ready for use when it shall become necessary to make another casting from it. And so, year in and year out, decade after decade, these wooden patterns made by the skillful woodworkers have been accumulating, and are still accumulating, at the great locomotive works of the Portland Company. There are thousands of them now on hand; patterns of every conceivable design; parts of common, rare and obsolete machines; of locomotives, marine and stationary engines; patents of wise men and fanatics; the inventions of hundreds, some valuable, some worthless; some made years ago and still in use, others that have never been used but once. Occasionally the company will receive an order for a particular part of some machine which was constructed years ago, and from which they have never heard since it left their shops until this order is sent in. Then Mr. James Knowlton, for nearly two-score years a trusted employe of the company, and superintendent of the pattern shop, hunts up the desired pattern, for he, and he alone, knows just where it is, and another casting is made. Mr. Knowlton is 70 years old, a thorough machinist, and is the man to whom all the other employes go when they want to learn about any machine that at some time or other has been made by the Portland Company. He remembers them all, and knows where to find the patterns. Besides an immense room, which contains thousands of patterns, a large, two-storied brick building is used as a storehouse for these wooden models. The cost of them all is counted in the hundreds of thousands of dollars, but of course many of them are today worthless, because they will never be used again. Which will and which will not be used again nobody knows. The patterns for brass work are kept in a room by themselves, and the scores of unique designs make an interesting study.

The large parterns, such as those of locomotive wheels, etc., are piled upon the floor, and the smaller and finer ones are conveniently arranged on shelves. A short time ago the patterns used to construct the machinery for two gunboats during the war, were burned, and from time to time such patterns as are known to be worthless from the fact that they will never be used again, will be given to the flames.

PERSONAL.

John G. Whittier, the poet, will visit relatives in this city next month.

Colonel John D. Anderson, treasurer at the Soldiers' Home, was in town yesterday.

Judge Bonney has returned from his Western trip.

Mr. M. S. Gibson of the Preble House, is in Chicago attending the meetings of the National Hotel Men's Association.

Mr. James Sinkinson of the Union Mutual Life Insurance Company, stepped on a rolling stone yesterday and sprained his ankle.

Mr. Thomas Pennell and family, Mr. and Mrs. W. C. King, and Mr. and Mrs. T. J. Frothingham will occupy the Littlejohn cottage at Jones's Landing this summer.

Mr. Matthews of Toronto, a student at the Bangor Theological Seminary, will preach at the Congregational church in Monson for the year beginning in June.

Hon. S. W. Matthews will not speak at Bowdoinham as reported, but has accepted an invitation from R. W. Mullen Post to deliver the Memorial Day address at North Vassalboro.

Miss Martha Colby, daughter of the editor of the Bar Harbor Tourist, and Mrs. Colby sailed for Europe last Saturday. They will spend the summer in Switzerland and the winter in Milan, Italy. Miss Colby goes there as the pupil of Senior Lamperti.

Colonel Milton H. French of Thomaston, was in this city yesterday. He leaves shortly for Denison, Texas, to locate. He is vice president and general manager of the Denison Land and Investment Company, recently organized. He is lieutenant-colonel, aide-de-camp on Governor Burleigh's staff.

There will be a very brilliant wedding at St. Luke's Cathedral this afternoon at 3 o'clock. Miss Clara Louise Deake, daughter of Mr. Charles S. Deake of this city, will be united in marriage to Mr. Theodore Butterfield of Utica, N. Y. Bishop Neely and Canon Sills will officiate. Yesterday afternoon a private car arrived here filled with New York and Utica people, who had rooms at the Falmouth Hotel last night, leaving this evening at 6 o'clock on their return trip.

Maine Central Directors' Meeting.

At a meeting of the directors of the Maine Central railroad yesterday it was voted to build a railroad from Fabyan's to Scott's Mills, a distance of about seventeen miles, connecting with the St. Johnsbury and Lake Champlain road and Passumsic railroad and at Newport with the great Canadian Pacific system. It will be remembered that the Champlain railroad and the Passumsic railroad are under the control of the Boston & Maine, and as the Boston & Maine and Maine Central are practically one system of railroads when the road from Fabyan's to Scott's Mills is completed it will give to Portland at once a connection with the Canadian Pacific system. Mr. Tucker spoke strongly in faver of the proposed road, setting forth the benefits to be derived from its construction. The directors voted to leave the construction of the road in the hands of Mr. Tucker who will have sole charge of the building of the road which is to be completed before the first of next January.

By means of this line it is intended to make Portland the shipping port for western freight brought over the Canadian Pacific. If this can be done a bright future is assured for Portland.

Evangelical Alliance.

At a meeting of the Evangelical Alliance in Y. M. C. A. hall last night, Mr. Charles Baker, of the committee on districting the city, made a partial report. At the request of the Alliance, Mr. Baker will complete his work and report next fall. A discussion on the "Evangelization of the Cities" was opened by Rev. Mr. Wright, who read a very interesting paper. Mr. Edson and Rev. Dr. Whitaker spoke interestingly on the subject. The meeting adjourned subject to the call of the secretary.

Portland Woman's Christian Association.

The monthly meeting of the Portland Woman's Christian Association was held at their home No. 26 Spring street, where they have provided a pleasant home for young women for a reasonable compensation. Rev. J. G. Wilson was present and gave an interesting account of the missionary work he had done in the city for the association. During the past quarter he had reached 400 families and distributed 520 tracts.

Martin's Point Bridge.

Martin's Point bridge will be impassible from Monday, the 20th inst, until the new draw is in place. The county commissioners have contracted with the Portland Company for $1600 for the iron work and wood work of a swing draw, the lumber, piling, driving, and capping to be furnished by the commissioners and the piling to be done by Samuel Teague. The expenses of the draw will be about $3000. The draw is built on a new plan, as compared with other Portland draw bridges.

THE CONGREGATIONAL CLUB.

A Large Meeting at the Preble House Last Evening.

The May session and final meeting for the spring, of the Congregational Club was held at the Preble House last evening. It was a ladies' meeting and drew an exceptionably large and brilliant company.

The social attractiveness of the club meetings has increased from month to month during the year as the members have become acquainted with one another, and the social hour in the parlors of the hotel last evening was especially pleasant.

The grand dining hall of the hotel was used for the banquet. The new feature of tastefully selected and well rendered music was much appreciated, and was a pleasant token of the attention of the proprietor of the Preble to his guests of the club.

At the table the divine blessing was invoked by Rev. E. P. Wilson of Deering. In the absence of President Hallock, on account of ill health, the duties of the chair were well performed by Vice President Abbott.

At the business sesion Mr. Charles F. Safford was elected to membership. The committee to which was referred the question, whether every session should be a ladies' meeting was continued to report at the first autumn meeting.

Following the banquet the presiding officer introduced the honored guest of the club, the Rev. Walcott Calkins, D. D., of Newton, Mass., who after a felicitous expression of his pleasure in meeting the Portland Congaregtional Club, proceed to consider a centennial theme "One Hundred Years Ago and Now."

The abject condition and terrible burdens of the common people in France at the close of the eighteenth century were impressively pictured. The wrongs, not the rights of men are the substance of the history of those times. The working men of France were being crushed to death by the taxes and exactions of the times, towards which taxes the nobles and ecclesiastics contributed not a cent.

The shameless corruption of the governing classes, and the grinding oppression of the peasantry, made necessary the great revolution, which had reasons for its existence even more forcible and urgent than those of our own great struggle for liberty.

There never was a movement more sincere, more noble, more in accordance with the golden rule, than the early days of the Assembly, the glorious revolution of 1789. This glorious movement, without atheism, devout, philanthropic, uniting Catholics and Protestants in patriotic fervor, was strangely arrested after its incipient steps. This arrest of the progress of liberty and of the brilliant start in civilization could have been nothing but the Nemesis of history avenging itself upon France for the gigantic corruptions of its king and the unholy and abominable usurpation of its ruling church.

The evil fortune of France has been contrasted in this past century by the good fortune of the United States. The evils under which France has groaned have been averted in our case by our irrepressible expansion, and the wondrous rescue which Providence has worked out for us when great dangers have threatened. The two countries each starting so grandly in the century now terminating, end the hundred years in strange contrast. Let us be thankful for our success while we sympathize with France in losses and reverses.

The address was one of rare thoughtfulness, accomplished scholarship and great eloquence. It was very instructive in its fine grasp of facts and suggestive in its relation to American policy and governmental methods. The thanks of the club, moved by Dr. Warren, were most cordially expressed.

After the benediction by Dr. Warren the club adjourned to meet in October next.

The season has been a decided success, and the club is popular, strong and has a brilliant outlook for the future.

The purity of Index Soap is unquestioned.

MARRIAGES.

In Madison, May 6, Joseph Stinson Ham of Portland and Miss Lydia Gilman Soule of Farmington.

In Biddeford, May 9, Joseph Petrin and Miss Delia Mitchell.

In Damariscotta, May 1, David F. Soule of Woolwich and Miss Lilla M. Chapman of Damariscotta.

CITY OF PORTLAND.

Notice of Hearing!

UPON the petition of R. D. Libby, for leave to erect and maintain a stationary steam engine of six horse power at the corner of Congress and Washington street; and

The petition of Stanwood & Shanning, for leave to erect and maintain a stationery steam engine of four horse power at No. 85 Commercial street.

Notice is hereby given that the Mayor and Aldermen will give a hearing to all persons interested in the above petitions on Monday, June 3, 1886, at their room, city building, at 7.30 o'clock p. m. By order of the board,

GEO. C. BURGESS, City Clerk.

Portland, May 14th, 1889. my14d2t

NEW ADVERTISEMENTS.

180 and 182 Middle Street.

Remember this concerns lads as much as men.

Last Spring and Summer we sold Fancy Wool Shirts by the hundred; often in the rush, only a hand-to-mouth supply ahead.

As soon as the warm weather looks staying we don't doubt the trade will repeat itself. We are ready.

Specially built for us, the best and most comprehensive show of out door and sporting Shirts in the city, got together; prices from the least to more costly; everything worthy in flannel and Madras.

Consider your taste and your sport and choose—Lawn Tennis, Boating, Cycling, Base Ball or Camping.

Whatever it is we suit it.

We take a day off Suits to say this much.

C. J. FARRINGTON,

The Middle St. Clothier,

NEAR EXCHANGE STREET.

may14 dtf

The weather today is likely to be showery.

PORTLAND, MAY 14, 1889.

BETTER be a bit too early than too late in placing orders for Window Shades, Curtains and other necessary things for the summer cottage.

Good plan to select the goods you want now, have them made up and delivered when the house is ready,—this month or next,—then you're sure of getting them when wanted, otherwise there's likely to be a delay; because when the rush for the islands and the beach and the country begins everybody wants attention at once, that means more or less unavoidable delay, and delay at that time means disappointment and annoyance.

Two great lines of Printed Scrim at 8 and 18 cents are having the call here now. They are the best for the money we have had yet and the prettiest. Bright, soft colors that will blend and harmonize with most anything,—wide, fine and substantial without being stiff—the best sort of stuff for summer houses,—which isn't saying they're not good enough for the town house too.

A case of cream white "crazy cloth" for which we've been waiting a long time arrived Saturday and is now ready in the draperies department.

Our stock of Silk Knotted Fringes for Dress Trimming embraces all styles and widths in black. The colors we are prepared to have made to order at short notice in any shade and quantity desired.

OWEN, MOORE & CO

PROPOSALS FOR COAL.—Custom House, Collector's Office, 1889.—Sealed proposals will be received at this office until 12 o'clock noon of Thursday, May 23, 1889, for furnishing coal to revenue vessels at this port for the fiscal year ending June 30, 1890. The coal furnished to be anthracite or bituminous as may be required, of best quality, uniform in character; to weigh 2240 pounds to the ton; to be delivered on board the vessels at such times and quantities as required at localities readily accessible to said vessels, and to be subject to inspection as to quality and weight. Bidders will name prices for both steaming and stove coal, and also their facilities for furnishing the vessels with fresh water and the charges therefor. The right is reserved to reject any or all bids and to waive defects. SAM. J. ANDERSON, Collector.

SPECIAL NOTICE.

In selecting Men's Clothing the STYLE, FIT, QUALITY and MAKE UP are the important features desired.

Manufacturing our own Clothing enables us to supply all these qualifications.

We have in stock at the present time an immense line of Suits, Overcoats and Pants which for style and fit cannot be surpassed.

An inspection will prove our claims.
